

A Beautiful Start to a (CogSci) Paper

Anonymous CogSci submission

Abstract

Put the abstract here

Introduction

Markdown supports *italics*, **bold**, and ***bold_italics*** style.

There are types of lists:

- something
- something else
- something else as well
- fun

(Gureckis and Goldstone 2006) (Chapman 1967)

hi

Or put another way:

1. something
2. something else
3. something else as well

A reference: (Love and Gureckis 2007)

- Item A
 - A sub list
 - * What?
 - Another thing
- A fun thing

I am a subsection

Here is a figure that I will reference

Figure 1: This is my figure caption
