A Beautiful Start to a (CogSci) Paper

Anonymous CogSci submission

Abstract

Put the abstract here

Introduction

Markdown supports *italics*, **bold**, and ***bold_italics*** style.

There are types of lists:

- something

- something else

- something else as well

- fun

Or put another way:

1. something

2. something else

3. something else as well

{>> This is a comment. Using the AcademicMarkdownThis is a comment <<}

A reference: (Love and Gureckis 2007)

- Item A
  - A sub list
    * What?
  - Another thing
- A fun thing

I am a subsection

Here is a figure that I will reference

Figure 1: This is my figure caption
